## **Northern Corridor Economic Region to drive high-value investment via border development**

The Northern Corridor Economic Region (NCER) has intensified the strategic development of the Malaysia–Thailand border area to attract high-value investments, while strengthening the northern region’s position as a new global supply chain hub based on the “China +1” strategy.

Northern Corridor Implementation Authority (NCIA) chief executive Datuk Mohamad Haris Kader Sultan said the integrated development involving the Chuping Valley Industrial Area (CVIA), Perlis Inland Port (PIP), Kedah Rubber City (KRC), and Kedah Science and Technology Park (KSTP) is designed to capitalise on the shift of global manufacturing sectors into Asean.

Mohamad Haris said NCER offers advantages through a combination of cross-border logistics connectivity, trade facilitation, ESG-compliant renewable energy, and direct access to the Asean market of more than 680 million people.

“The ‘China +1’ strategy is not a temporary trend, but a structural realignment of global supply chains. NCER’s new investment framework focuses on high-technology investments and the creation of quality jobs for Malaysians,” he said in a statement Thursday. – The Edge Malaysia

## **Putrajaya to unveil measures addressing job losses within next two weeks — PM**

The government will take immediate measures within the next two weeks to assist the 7,057 workers reported to have lost their jobs in April. Prime Minister Datuk Seri Anwar Ibrahim said the matter had been discussed at the National Economic Action Council (MTEN) meeting to improve the situation and provide alternative employment opportunities for those affected, especially youths.

Anwar, who is also finance minister, said the government would also ensure better synergy between incoming investments and job opportunities for Malaysians, particularly in several major industrial areas nationwide. “There are now new job opportunities, and we must channel them properly so there is synergy with new investments coming into areas such as Perak, Penang, Kulim High Tech (Kedah), Selangor, Negeri Sembilan, Johor and Sarawak.

“So within the next week or two, there will be other measures to help restore the situation and provide several new job opportunities, especially for young people,” he told reporters after presenting sacrificial cows to the Penanti state constituency community at Padang Mengkuang Titi here on Tuesday. – The Edge Malaysia

## Treasury yields edge lower as traders hope for U.S.-Iran deal, weigh in-line inflation report

Treasury yields edged lower again Thursday after a report that U.S. and Iranian negotiators agreed to extend a ceasefire drove oil prices lower, even as new U.S. data reflected persistent inflation.

The yield on the 10-year U.S. Treasury note — the main benchmark for mortgages, auto loans and credit card debt — dipped almost 3 basis points to 4.453%.

The 2-year Treasury note yield, most sensitive to short-term Federal Reserve interest rate decisions, fell nearly 1 basis point to 4.025%. The longer-dated 30-year Treasury bond yield, which typically reacts most to geopolitical risks, dropped 3 basis points to 4.98%.

Oil pulled back from its highs of the day after Axios reported that U.S. and Iranian negotiators agreed to extend the ceasefire in the three-month war and start talks on Iran's nuclear program. President Trump has yet to give the agreement his final approval, the report said. – CNBC
